AIA Workbench

Simplify retention invoicing with ease

Retention billing is a critical yet complex part of managing contracts—especially in industries like E&C. Manual tracking and delayed invoicing often lead to missed payments and process inefficiencies.

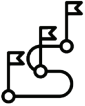

Rite's AIA Workbench provides an intelligent, automated solution to manage retention invoicing with precision. Built for Oracle environments, it enables real-time visibility, milestone-based triggers, and seamless accounting transitions ensuring you stay on top of your retention processes with less effort and more confidence.
