Applications

With our best-practice-driven approach and proven implementation methodology. RiteSoftware is your trusted partner in your digital transformation journey. We have extensive experience implementing, upgrading and supporting ERP applications across industries. Rich experience in helping customers with mergers and acquisitions of ERP projects.

We provide end-to-end consulting services for the following application suites:

Oracle ERP Cloud	Oracle HCM Cloud	Oracle PPM Cloud	Oracle SCM Cloud
Oracle NetSuite	Salesforce	Oracle E-Business Suite	Oracle PeopleSoft

Analytics & Business Intelligence

We are experts in building and supporting integrated data frameworks for the organization's transactional and reporting needs. Our experience in building high-performance transactional databases and flexible near-real-time, search-friendly reporting databases is commendable.

Connect your data and unify your analytics across multiple ERP, HCM and CRM systems through a single, cross-functional, extensible data model.

Supported systems/tools:

OBIEE/OBIA	OAC/OAS	FAW	Power BI	Tableau

Staff Augmentation Services

Rite is not a typical placement agency; At Rite, we evaluate core skills, soft skills and office etiquettes that are essential for the required job/role.

- ☑ We provide highly qualified talents to address complex business processes and IT solutions.
- ☑ Rite carefully screens resources and works with enterprises to fully understand business requirements and provide the best help.

- ☑ Provide rapid response to our customer needs.
- ☑ Flexible pricing plans and work schedules.
- ☑ We hire from our well-curated strong network.

Applications Managed Services

We manage the day-to-day running and optimization of your applications and infrastructure so that you're free to focus on innovation.

Maintenance
We manage routine system administration with a 24x7 support model, including setup, configuration, access control, and user provisioning.

Support Model
Our flexible resource deployment model combines the cost benefits of offshore services with the security and simplicity of onshore support.

Upgrades
We perform upgrades with detailed reports showing the impact on your environment, minimizing downtime, and ensuring that your systems are always up-to-date. We reduce transition efforts while ensuring that your users are equipped to deal with the changes.

Enhancements
We improve system performance by implementing new functionality that isn't part of your original specifications, such as creating new reports, configuration changes, etc.

Security
We help you avoid security risks and protect your investment by ensuring your systems are always up-to-date and upgraded to the latest versions.

Process Improvements
We conduct root cause analysis of incidents and provide corrective actions with regular reporting and periodic performance audits, delivering continuous improvement.

Our Managed Services include:

- ☑ Oracle E-Business Suite
- ☑ Oracle Cloud Applications
- ☑ Oracle BI Managed Services
- ☑ Oracle NetSuite ERP
- ☑ Managed Services for Tableau and Power BI

Oracle Cloud Infrastructure Migrations

- ☑ Complete migrations of EBS instance onto OCI
- ☑ Reduce capital expenditure by eliminating unnecessary hardware
- ☑ 30% better performance and 2-10x faster reporting

PeopleSoft Lift & Shift Migrations to OCI
- ☑ Quick and seamless migration without re-architecture
- ☑ Significant savings by eliminating upfront hardware, facilities, admin, and support costs

BI Lift & Shift to OCI
- ☑ Achieve data warehouse and analytics flexibility
- ☑ Improve decision making with real-time data and reports on the go
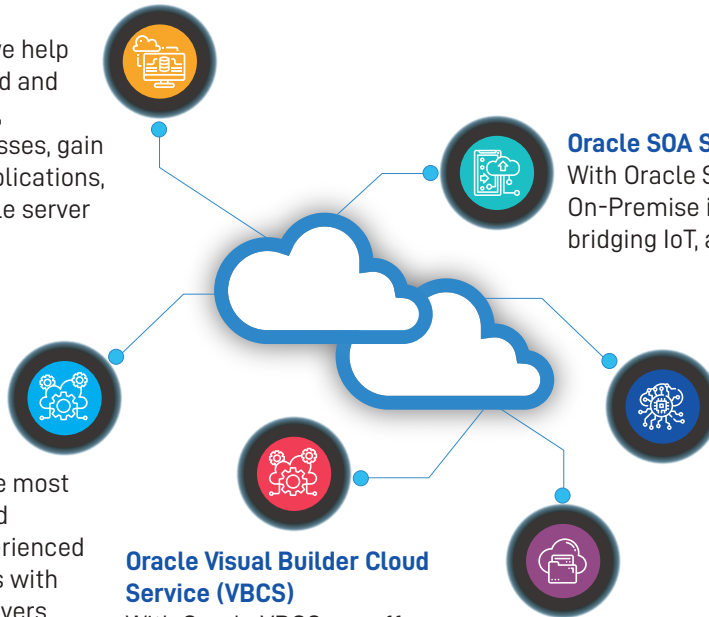

Complimentary

Lift and Shift Services with **3 YEAR** Managed Service contract.

ERP Tech Capabilities

We can help you connect and integrate your mission-critical on-premise and SaaS applications as well as back-office applications – both Oracle and non-Oracle.

Oracle Integration Cloud
With Oracle Integration, we help you to integrate your cloud and on-premises applications, automate business processes, gain insight, develop visual applications, use an SFTP-compliant file server to store and retrieve files.

Oracle SOA Suite 12c
With Oracle SOA Suite 12c, we provide Cloud and On-Premise integration, mobile enablement, bridging IoT, and scalability.

OCI Skills
We maintain a team of the most skilled and Certified Cloud Developers and well-experienced DBA/Linux Administrators with vast knowledge in OCI servers. Our experts can develop a comprehensive cloud workload migration strategy tailored to meet your requirements.

Oracle Visual Builder Cloud Service (VBCS)
With Oracle VBCS, we offers powerful visual app design tools to create and customize your applications and extensions with a unified development approach.

Oracle BI Publisher
We help create pixel-perfect reports on the go using any data source, view reports online, and generate hundreds of reports without impacting your systems.

Oracle Application Express (APEX)
With Oracle APEX assist you in building scalable, secure enterprise applications that can be deployed to solve business problems without having to become experts in several complex technologies.

Database & Linux Admin Services

Our end-to-end Oracle Database and Linux support services help you control costs, reduce operational risks, and optimize your database infrastructure. We offer customizable solutions and various support packages that address specific organizational needs and are tailored to suit your goals and budget.

Database / Operating Systems - Upgrades and Migrations

Database Upgrades and Migrations
