

ConvertRite

**Your Ultimate Solution for simplified
& streamlined Data Migration to the
Cloud!**

ConvertRite, an innovative Data Migration Tool simplifies the migration process from any legacy applications to Oracle Cloud thereby eliminating manual, time-consuming, and error-prone tasks.

ConvertRite for Effortless Data Migration: Erases Complexities while Embracing Cloud

Ensure secure access with Single Sign- On (SSO) capabilities, backed by OAuth authentication.

Gives the benefit of copy Functionality

- Project Level Copy: Duplicate projects for streamlined setup.
- Conversion Object Copy: Effortlessly replicate conversion objects.
- Lookup Set Copy: Swiftly reuse lookup sets for consistent mapping.

Pre-Validations to check the mapped field level data against the cloud data reduces the errors while processing FBDI/ HDL files.

Built-In Adaptors for Oracle EBS facilitate seamless data mapping between EBS and the cloud.

Why Choose ConvertRite?

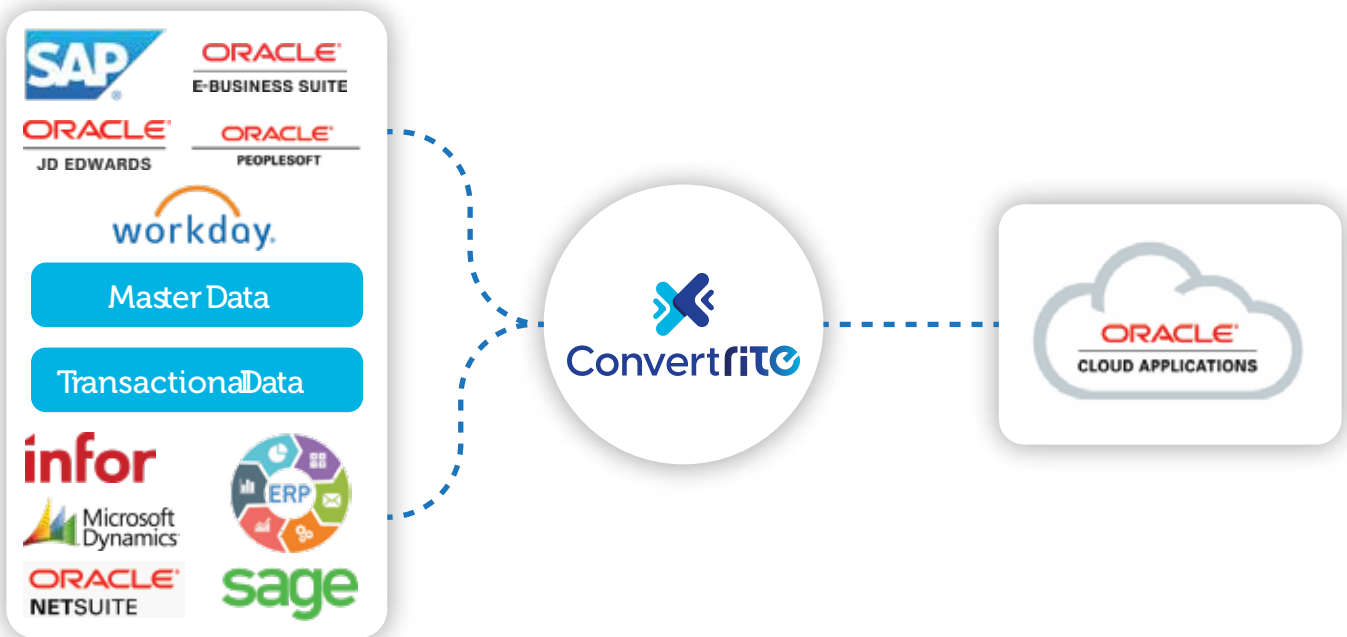

Discover the robust capabilities of ConvertRite that promises easier & faster Cloud Data Migration:

1. ConvertRite adapts to your unique migration needs by being ERP Agnostic.
2. Give valuable insights with intuitive Rich Dashboards.
3. Manages every aspect of the conversion process separately for each POD with End-to-End Conversion.
4. Facilitates Extensive Mapping Capabilities to achieve accurate data transformation,
 - a. Migrates data from one-to-one using 1 to 1 Mapping
 - b. Simplifies complex migrations with ease using 2 to 1 and 3 to 1 Mapping
 - c. Applies custom formulas for precise data transformation using Formula Mapping
 - d. Enhance data consistency effortlessly using Prefix and Suffix Mapping

Benefits of Using ConvertRite:

- ✓ Unlock cost savings of up to 40%
- ✓ ConvertRite has Pre-Built Cloud integrations, so you will have highway directly to the cloud.
- ✓ Our No/Low-code Data Migration Tool makes your transition to the Oracle Cloud is not just smooth but also future-proof
- ✓ Flexibility of managing & migrating ConvertRite's configurations across PODs. As easy as a button click!
- ✓ Complexities become manageable, and conversion projects stay on track with ConvertRite's Built-In Project tool
- ✓ Handles complex business needs & validations using Extensible User Hooks
- ✓ Comes with flexible licensing options for required modules
- ✓ Its Built-in Reconciliation process ensures to easily reconcile data and generate detailed reports after migration

Here is how the magic works!
